also be divided into a hierarchy (according to Krathwohl). This area is concerned with feelings or emotions (and social/emotional learning and skills). Again, the taxonomy is arranged from simpler feelings to those that are more complex.

Three Domains of Learning—Cognitive, Affective ...

In essence, Vygotsky recognizes that learning always occurs and cannot be separated from a social context.

Consequently, instructional strategies that promote the distribution of expert knowledge where students collaboratively work together to conduct research, share their results, and perform or produce a final project, help to create a collaborative community of learners.

The adults will facilitate the progression in learning by planning appropriate activities. They will:

- Support children in their play
- Provide good quality resources
- Be aware of the potential learning in all areas of the curriculum
- Model skills involved in play
- Interact with the children, asking questions and making suggestions
