A solid understanding of how banks operate is crucial to grasp the functioning of modern society. Banks are an intrinsic part of business, finance, and everyday life. Modern banking is regulated by a sophisticated set of laws and regulations that are constantly evolving. Banking Law and Practice from the Hong Kong Institute of Bankers outlines and explains these laws and regulations clearly and in detail. This regulatory framework has a deep impact on banks, bankers, and anyone that deals with them, which is the overwhelming majority of society. This high level of impact makes Banking Law and Practice an important book as well as a necessary and authoritative reference for industry professionals, students, and the public at large. Banking Law and Practice discusses a range of topics that have a direct bearing on the day-to-day operations of banks, from contracts to how to ensure safe and secure lending. It examines the development and current state of banking legislation and regulation and facilitates bankers and their institutions to shape their practice to meet all the necessary legal and regulatory requirements. Students, industry professionals, and the public at large will welcome the thorough and clear explanations of the legal and regulatory framework in which banks operate. This book is essential reading for candidates studying for the HKIB Associateship Examination and anyone else seeking expert knowledge of the legal and regulatory structure affecting banks in Hong Kong. Topics covered in this book include: Contractual Relationships Code of Banking Practice Money Laundering Negotiable Instruments Law Related to Securities Bankruptcy and Insolvency

The female voice plays a more central role in Sufi ritual, especially in the singing of devotional poetry, than in almost any other area of Muslim culture. Female singers perform sufiana-kalam, or mystical poetry, at Sufi shrines and in concerts, folk festivals, and domestic life, while male singers assume the female voice when singing the myths of heroines in qawwali and sufiana-kalam. Yet, despite the centrality of the female voice in Sufi practice throughout South Asia and the Middle East, it has received little scholarly attention and is largely unknown in the West. This book presents the first in-depth study of the female voice in Sufi practice in the subcontinent of Pakistan and India. SHEMEEM BURNEY ABAS investigates the rituals at the Sufi shrines and looks at women's participation in them, as well as male performers' use of the female voice. The strengths of the book are her use of interviews with both prominent and grassroots female and male musicians and her transliteration of audio- and videotaped performances. Through them, she draws vital connections between oral culture and the written Sufi poetry that the musicians sing for their audiences. This research clarifies why the female voice is so important in Sufi practice and underscores the many contributions of women to Sufism and its rituals.

This book constitutes the first comprehensive attempt at describing the genre of Qur'anic exegesis in its broader intellectual context. Its aim is to provide a framework for understanding the boundaries of tafsīr and its interaction with other

disciplines of learning, as well as the subgenres and internal divisions within the genre.

The scientific study of society is known as sociology. All spheres of human activity are continuously influenced by a complex interplay of individual agency and social structure. The study of society expands to the domains of health, economy, education, military and science. However, at its core, the field is focused on the study of culture, criminality and punishment, economy, family, gender and sexuality, health and illness, peace, war and conflict, etc. Sociological study and research is vital for educators, policy makers, legislators, non-profit organizations and non-governmental organizations, social workers and anyone with the inclination to resolve or address social issues. The central problems of sociological theory are concerned with the way to transcend, link or cope with the dichotomies of structure and agency, subjectivity and objectivity, and synchrony and diachrony. Modern sociological studies are advanced by the adoption of hermeneutic, philosophic and interpretive techniques as well as analytic, computational and mathematical approaches to the study of society and culture. This book is a valuable compilation of topics, ranging from the basic to the most complex advancements in the field of sociology. Different approaches, evaluations, methodologies and advanced studies have been included in this book. With state-of-the-art inputs by acclaimed experts of this field, this book targets students and professionals.

"A sweet, life-affirming tale . . . with a liberal sprinkling of magic." —Marie Claire (UK) "Filled with family secrets, intrigue, and magic aplenty." —Booklist Bestselling author Cecelia Ahern follows *The Gift* and *P.S.
