In this entry we explore the suggestion made in Zechariah Sitchin's idea that the story in Genesis in the Bible is actually about the creation of Humans by a group of Ancient Astronaut Aliens called the Anunnaki. In books such as *The Lost Book Of Enki*, Sitchin gives an interpretation of the Genesis Bible story of the creation of Humans as really showing how Humans were created through an Ancient Astronaut Genetic experiment conducted by a Race of Extraterrestrial Beings known as the Anunnaki.

Drawing upon multiple sacred texts, Hardy details the genetic engineering of humanity by Anunnaki scientist Ninmah, with the help of Enki and Hermes. She reveals how Ninmah's first female human creation, Tiamat/Eve, contained more alien DNA than the earlier male one, Adamu, and how the biblical Noah represents the perfection of her work.

Enki is known as Lord of Creation and is the one who is responsible for limiting our DNA in order for us to worship the Anunnaki as gods. He ended up falling in love with his creation and commingled with us which gave us the Anunnaki DNA as well. Because the codons in our DNA were limited, the Anunnaki DNA also lies dormant in our DNA.

An in-depth study of humanity's Anunnaki origins and the Anunnaki battle for an intelligent versus enslaved humanity • Explains the genetic engineering of humanity by an Anunnaki scientist Ninmah • Shows how the concepts of sin and the inferiority of women arose from Enlil's will to keep humanity underdeveloped, clashing with Enki's and Ninmah's plan to make us equal in intelligence • Reveals how humanity's long history of conflict was shaped by the battle between Enki and his brother Enlil Further developing the revolutionary work of Zecharia Sitchin, Chris Hardy shows that the "gods" of ancient myth, visitors from the planet Nibiru, created us using their own "divine" DNA--first through DNA extraction from their own ribs' marrow and later by direct relations with early human females. Drawing upon multiple sacred texts, Hardy details the genetic engineering of humanity by Anunnaki scientist Ninmah, with the help of Enki and Hermes. She reveals how Ninmah's first female human creation, Tiamat/Eve, contained more alien DNA than the earlier male one, Adamu, and how the biblical Noah represents the perfection of her work. Examining the war between Anunnaki brothers Enki and Enlil, Hardy

reveals how the concepts of sin and the inferiority of women were born out of Enlil's attempts to enslave and then wipe out humanity, repeatedly thwarted by Enki and Ninmah. The author further explains how the sacred sexuality taught to humans--still seen in Tantric practice--became suppressed millennia later by the patriarchal concept of original sin and how innocent Eve took the blame for the expulsion from Eden and fall from Grace. Showing that the god who created us was not the same god who expelled us from Eden, Hardy explains that there will be no apocalypse because the Good/Evil duality has never truly existed--it has been only enemy gods fighting and implicating humanity in the wake of their own competition for power. With a full psychological understanding of how the ancient "gods" have shaped humanity's ongoing history of conflict, we can move beyond the framework of "(my) Good versus (your) Evil" imposed by Enlil and begin to steer our own planetary destiny.

Our origins as a slave species and the Anunnaki legacy in our DNA • Reveals compelling new archaeological and genetic evidence for the engineered origins of the human species, first proposed by Zecharia Sitchin in *The 12th Planet* • Shows how the Anunnaki created us using pieces of their own DNA, controlling our physical and mental capabilities by inactivating their more advanced DNA • Identifies a recently discovered complex of sophisticated ruins in South Africa as the city of the Anunnaki leader Enki Scholars have long believed that the first civilization on Earth emerged in Sumer some 6,000 years ago. However, as Michael Tellinger reveals, the Sumerians and Egyptians inherited their knowledge from an earlier civilization that lived at the southern tip of Africa and began with the arrival of the Anunnaki more than 200,000 years ago. Sent to Earth in search of life-saving gold, these ancient Anunnaki astronauts from the planet Nibiru created the first humans as a slave race to mine gold--thus beginning our global traditions of gold obsession, slavery, and god as dominating master. Revealing new archaeological and genetic evidence in support of Zecharia Sitchin's revolutionary work with pre-biblical clay tablets, Tellinger shows how the Anunnaki created us using pieces of their own DNA, controlling our physical and mental capabilities by inactivating their more advanced DNA--which explains why less than 3 percent of our DNA is active. He identifies a recently discovered complex of sophisticated ruins in South Africa, complete with thousands of mines, as the city of Anunnaki leader Enki and explains their lost technologies that used the power of sound as a source of energy. Matching key mythologies of the world's religions to the Sumerian clay tablet stories on which they are based, he details the actual events behind these tales of direct physical interactions with "god," concluding with the epic flood--a perennial theme of ancient myth--that wiped out the Anunnaki mining operations. Tellinger shows that, as humanity awakens to the truth about our origins, we can overcome our programmed animalistic and slave-like nature, tap in to our dormant Anunnaki DNA, and realize the longevity and intelligence of our creators as well as learn the difference between the gods of

Reveals the ongoing alien manipulation of humanity and how we can break free • Explores how the Anunnaki have maintained invisible surveillance over us and how they control our development through religion, secret societies, and catastrophes • Reveals how they feed off our energies and how this ability has allowed them to remain here on Earth as multidimensional entities, enforcing their control invisibly • Explains how they established religion to control us and how Gnostic Christianity--which came from Christ and not the Anunnaki--offers a way out of their matrix of control Cuneiform texts found on clay plates in Mesopotamia tell us about an extraterrestrial race, called the Anunnaki, who came from space to exploit our planet. Through genetic manipulation, they created modern humans from existing earthly life forms to serve them as slaves. They physically left our planet millennia ago, but as Jan Erik Sigdell reveals, their influence and control over humanity is still pervasive and significant. Sigdell explains how the Anunnaki have maintained invisible surveillance over us as well as control over how humanity develops, setting limits on our evolution and holding back our development by means of manipulation and catastrophes, including the deluge immortalized in the Bible and many other ancient myths. He shows how they still

manipulate our politics and affairs via secret societies, such as the Illuminati, and the political elite, such as the Bilderberg Group. Examining ancient descriptions of the Anunnaki as entities that resemble winged reptiles or amphibians, the author also explores their diet and how they feed off blood and the energies given off by lower life forms, such as humans, when they are expressing extreme negative emotions, having sex, or dying. This energy-feeding ability has allowed them to remain here on Earth as multidimensional entities, enforcing their control invisibly. He explains how the Anunnaki established religions as tools for control, setting up the major religions with themselves as "gods" and playing them against each other to keep humanity's attention away from ongoing Anunnaki manipulation. They have also hidden from us the existence of the true highest creator, who created the cosmos as well as the Anunnaki themselves. The author reveals how the highest creator sent a messenger called Jesus to expose the Anunnaki and show us a way out of their matrix of control through a spirituality based on love, empathy, and sacred sexuality. But the "god" of the Anunnaki defeated this messenger and replaced him with a false Christ. This led to the development of Paulinian Christianity under Anunnaki influence, as well as other parallel religions such as Islam, and the suppression and elimination of the original Christianity, Gnostic Christianity. With the discovery of hidden Gnostic texts and teachings at Nag Hammadi in 1945, the way is now paved for our release from the reign of the Anunnaki.

An in-depth analysis of Sitchin's revelations about the Anunnaki, early humanity, and Earth's future • Examines Sitchin's research into the Anunnaki arrival on Earth, the lineage of the Nefilim, their space travel technology, and their creation of modern humans • Written by longtime Sitchin friend and colleague M. J. Evans, Ph.D., and draws upon her research and personal discussions with Sitchin • Explores the lust and lovemaking relationships of the Nefilim and suggests we inherited our warlike and love making tendencies from them Known for his provocative interpretations of ancient Sumerian and Akkadian clay tablets, Zecharia Sitchin (1920-2010) read the words of our most ancient ancestors as fact and, through decades of meticulous research, showed that these ancient tablets revealed a coherent narrative about the extraterrestrial inhabitants of Earth and the origins of modern humanity. Drawing upon her many conversations with Zecharia Sitchin over nearly 20 years, M. J. Evans, Ph.D., longtime Sitchin friend and colleague, provides an in-depth analysis of Sitchin's revelations about the Anunnaki, focusing on Anunnaki activities on Earth and Earth's future. She explores the genesis of Sitchin's interest in the Nefilim, the leaders of the Anunnaki, and the controversy caused by the publication of Sitchin's first book, *The 12th Planet*. She examines Sitchin's research into the Nefilim family tree, the Anunnaki arrival on Earth to mine gold to repair the atmosphere on their planet, Nibiru, and their creation of modern humans as workers for their mines and to build their civilization on Earth. She shows how, in the context of 21st-century technological capabilities, Sitchin's work casts a different light on ancient events, with implications for our future. The author reveals the details of the love and lust proclivities of the Nefilim gods Anu, Enlil, and Enki and the goddess Ishtar/Inanna and shows how we inherited these tendencies from our Anunnaki creators as well as their use of war for problem solving. Concluding with an examination of Sitchin's prediction of a nuclear event on Earth in 2024 AD, she shows how we would be repeating the aggressive warlike behaviors of our Anunnaki creators, who may very well become our saviors when Nibiru next returns to our solar system.
