Winner of the Colorado Book Award in Poetry (2018) In this fourth book in a series of award-winning survival narratives, Dungy writes positioned at a fulcrum, bringing a new life into the world even as her elders are passing on. In a time of massive environmental degradation, violence and abuse of power, a world in which we all must survive, these poems resonate within and beyond the scope of the human realms, delicately balancing between conflicting loci of attention. Dwelling between vibrancy and its opposite, Dungy writes in a single poem about a mother, a daughter, Smokin' Joe Frazier, brittle stars, giant boulders, and a dead blue whale. These poems are written in the face of despair to hold an impossible love and a commitment to hope. A readers companion will be available at wesleyan.edu/wespress/readerscompanions.

Algebra | Partial Fractions | The Binomial Theorem | Exponential Theorem | The Logarithmic Series Theory Of Equations | Theory Of Equations | Reciprocal Equations | Newton-Rahson Method Matrices | Fundamental Concepts | Rank Of A Matrix | Linear Equations | Characteristic Roots And Vectors Finite Differences | Finite Differences | Interpolations: Newton'S Forward, Backward Interpolation | Lagrange'S Interpolation Trigonometry | Expansions | Hyperbolic Functions Differential Calculus | Successive Derivatives | Jacobians | Polar Curves Etc..

True to the ideology of the Schaum's Outlines, the present version of this book includes the discussion on basics of data structures supplemented with solved examples and programming problems. The classic and popular text is back with refreshed pedagogy and programming problems helps the students to have an upper hand on the practical understanding of the subject.

This book over the years has proved to be a great architect in shaping student's ability to master Logical Reasoning and Data Interpretation for CAT examination. The fifth edition covers all the fundamental and advanced topics, supported by ample number of worked out examples, caselets, and exercises . It also provides clarity and knowledge of the concepts and questions that are asked in various MBA entrance examinations such as XAT, SNAP, IIFT, IRMA, MAT, NMAT, etc.

This is a course for upper-intermediate and advanced level students who need to understand and talk about the key contecepts in business and economics. Covering the most important areas of management, production, marketing, finance and macroeconomics, it helps students to understand and talk about a wide range of business topics. Reflecting recent changes in the world's business and economic environment, the course now covers subjects like wikinomics, viral marketing, hedge funds, the subprime crisis and energy policy. This student book comes with a teacher's book and two CDs. Suitable for independent study.

Statistics for Managers is a comprehensive text for MBA students. It provides an exhaustive understanding of the subject. The understanding of statistical language has been made easier with the help of numerous review question and graded exercises. Topics covered include statistics, probability, sampling distribution, testing of hypothesis and inferences. Key features: Each topic is treated in a systematic and logical manner. Each unit includes a variety of solved problems and a separate question bank with multiple choice problems. Includes worked out examples drawn from various university examination.
