Drafting Design Carbon| Architectural Design | Design Ottawa

Technical drawing, drafting or drawing, is the act and discipline of composing drawings that visually communicate how something functions or is constructed. Technical drawing is essential for communicating ideas in industry and engineering. To make the drawings easier to understand, people use familiar symbols, perspectives, units of measurement, notation systems, visual styles, and page layout. Together, such conventions constitute a visual language and help to ensure that the drawing is unambi

Technical drawing - Wikipedia

Architects and architectural drafters use computer-aided design (CAD) software to create drawings and blueprints for buildings. Architectural drafters often specialize in designing a specific type of structure. Proficiency in the use of computers and CAD software is key to working in the field.
