Fast Guide to Cubase 6 By Simon Millward (PC Publishing, paperback, list price \$29.95) I'm not sure a 474-page book should bill itself as a "fast guide." For Simon Millward's new work, a better descriptor would be "thorough." Steinberg Cubase 6 software is feature-rich and powerful software for music creation and audio recording.

This is not Simon Millward's first book on Cubase, and those who have the earlier 'Fast Guide to Cubase 4' may wonder whether its worth purchasing this new version. That's a tough call. One the upside, the Cubase 4 guide was released before there was a major update to the software of Cubase 4, and the changes in this book reflect the alterations in that software that carried across to version 5.
