the eyes of a music box dancer? Well, this is how I imagine it would feel. Tiny Dancer is about a special ballerina music box who finds herself on the adventure of her life when she is bought as a birthday gift for a five-year-old girl named Angel.

About ten years ago, my children built me a pond for Mothers Day. We filled it with plants, koi, and gold fish. Two frogs moved in during the course of the year and became cherished pets to my children. Unfortunately, since we live in a green space, a couple of raccoons discovered our pond and ransacked it one night. As the children were devastated, I created a story to take their minds of it. This is the result of that story.

found in urban, business settings. Comparisons are made between these two current forms of masculinity and both similarities and differences are identified. Six product categories compose the Constellation of Masculinity for both groups. Hirschman selects a masculine prototype brand from each category and presents a detailed analysis of the images, language and marketing actions used to create the brand's masculinity over time. Using her method, marketers for other brands will be equipped to enhance the masculine status of their brands, as well. Branding Masculinity proposes that masculine brands are made, not born. Masculinity is an enduring cultural ideal which can be attached to a variety of products and brands by the appropriate use of symbols, icons and images. The Native American symbolization of the dog is noble, faithful, loyal, teaching, protection, and guidance. This is a very special story, a true story, about a puppy that had a heart much bigger than that of any person I have ever known and had taught our family a very important lesson about unconditional love and friendship.

Get Fords complete story in Ford Tough: 100 Years of Ford Trucks and see why they 've dominated the truck market, selling 1.5 million trucks every year in the US alone. In July 1917 Ford Motor Company introduced a one-ton chassis for commercial trucks, marking what many historians feel was its official entry into the dedicated truck business. Sure, after-market pickup beds could be added to a Model T car to convert it to a pickup, but with the debut of the rugged Model TT truck chassis, Ford was firmly in the truck market. Eight years later, Ford introduced its first factory-produced pickup, a sturdy half-ton job the public loved. During the century that has passed since that first Ford truck chassis, the F-series has become the best-selling truck in the world, and the best-selling vehicle of any type in America. Ford Tough: 100 Years of Ford Trucks tells the entire Ford truck story from the

When Ford launched the Mustang, it created an automotive revolution. Award-winning designer and stylist Gale Halderman was at the epicenter of the action at Ford, and, in fact, his initial design sketch formed the basis of the new Mustang. He reveals his involvement in the project as well as telling the entire story of the design and development of the Mustang. Authors and

Mustang enthusiasts James Dinsmore and James Halderman go beyond the front doors at Ford into the design center, testing grounds, and Ford facilities to get the real, unvarnished story. Gale Halderman offers a unique behind-the-scenes perspective and firsthand account of the inception, design, development, and production of the original Mustang. With stinging losses from the Edsel fresh in minds at Ford, the Mustang project was an uphill battle from day one. Lee Iacocca and his assembled team had a herculean task to convince Henry Ford II to take a risk on a new concept of automobile, but with the help of Hal Sperlich ' s detailed market research, the project received the green light. Henry Ford II made it clear that jobs were on the line, including Iacocca ' s, if it failed. The process of taking a car from sketch to clay model to prototype to preproduction and finally

finished model is retraced in insightful detail. During the process, many fascinating experimental cars, such as the Mustang I two-seater, Mustang II prototype, Mustang Allegro, and Shorty, were built. But eventually the Mustang, based on the existing Ford Falcon, received the nod for final production. In a gala event, it was unveiled at the 1964 World ' s Fair in New York. The Mustang received public accolades and critical acclaim, and soon it became a runaway hit. After the initial success, Ford designers and Gale Halderman designed and developed the first fastback Mustangs to compliment the coupes. The classic Mustang muscle cars to follow, including the GT, Mach 1, and others, are profiled as well. The Mustang changed automotive history and ushered in the pony car era as a nimble, powerful, and elegantly styled sports coupe. But it could so easily have
