This is an Avaya WebRTC client which can be used with IP Office systems. For IP500 V2 installations, it requires the system to be supported by an one-X Portal for IP Office running from an IP Office Application Server. The IP Office Application Server server is configured with a WebRTC Gateway service. The application is useable by any user configured for one-X Portal for IP Office and using the Chrome browser on a Windows or macOS PC. A thick-client is also available for Windows.
