jQuery plugin for loading and using templates. The plugin is designed to be simple yet

Online Library JQuery

powerful, and supports loading templates from within the page, or using AJAX to load html files.

~~templates | jQuery Plugin Registry~~
Using jQuery `$(this)` Selector with `.each` Function. Basically `each()` function finds all selectors with

Online Library JQuery

the same tag name, class or id and creates a loop to target each element detected. It doesn't matter if the elements are not close to each other, jQuery `$(this)` selector will handle every item found in the loop. Let me show you an example.
