The two privileged regiments of Carabiniers survived the French Revolution with their elite status intact. They covered themselves with glory at Austerlitz, Friedland, Ratisbonne and Wagram where their bloody losses shocked Napoleon into ordering them new helmets and cuirasses. Re-formed after near annihilation in Russia in 1812, they fought at Leipzig and in many actions of the 1814 French campaign, and made one of the final charges at Waterloo. Illustrated with rare early prints and meticulous colour reconstructions, this book details their story, and their unique uniforms, from surviving period documents.

The first in a new series, *The Art of Painting Miniatures: Faces and Figures* provides a fresh look at the art of figure painting. The content of this book is a result of 30 years hands-on experience, critical observation, experimentation and enhancement of what works. The step-by-step painting process will elevate your level of figure painting from a poorly painted face to a realistic one. The goal is to give the figure, in particular the head and face, serious and artistic treatment, emphasizing skin tones, character development and realism. This book is dedicated to the beginner as well as the experienced modelers, who feel a need to tell a story using figures in their vignettes and dioramas; to the textile painters who paint uniforms, banners, flags and other accessories with great detail and but need the concept and techniques to improve their face and figure work; to the advance modeler who understands his level of expertise and depends on another at his level to paint the figures for his dioramas; for the experienced modelers who want to elevate the level of their figures, and learn how to critically look and improve their face and figure work; and lastly, for the masters, these concepts will deepen and drive their techniques to a more profound level of realism.
