Respiratory Therapy Examination Review

The first exam is the Therapist Multiple-Choice Exam or TMC. Before January of 2015 it was known as the Therapist Written Registry Exam. This exam evaluates the entry level abilities required of respiratory therapists. If you pass this exam with a high cut score you can move on to the next one, which is the CSE or Clinical Simulation Exam.

Respiratory physical therapy embodies two groups of functionally discrete techniques. The first, referred to as "pulmonary physical therapy," consists of measures designed to enhance mucociliary clearance, increase the volume of expectorated sputum, and improve airway function. Specific techniques include chest percussion, vibration, and postural drainage. They generally achieve their ...
