Surviving is easy. It's the next part, living, that's hard. Zombies. It is seven months since the outbreak. The world is in ruins. Britain is a radioactive wasteland peopled by the undead. The few survivors cling to the hope that they might wake up tomorrow. For most, that is all they have left. But Nilda has something more; the chance that her son is alive. At least he was, months before. She and Chester set out from Penrith, searching for her son. During the journey, Nilda learns more about this self-confessed criminal, Radio Free England, the conspiracy behind the outbreak, and how Chester was involved in it all. As they near Hull, she realises it is too late to change her travelling companion. She will need his help to escape the zombie infested city, and find her son. Fleeing from the last remnant of the old government, Tuck and Jay head south in search for survivors. When they rescue a wounded man, their quest becomes one for medical supplies. That leads them to a rooftop city, and to the realisation that surviving out in the wasteland is easy compared to forging a new life from the wreckage of the old civilisation. Zombies. The outbreak began in New York. Soon it had spread to the rest of the world. People were attacked, infected, and they died. Then they came back. No one is safe from the undead. As anarchy and civil war took grip across the globe, Britain was quarantined. The British press was nationalised. Martial law, curfews and rationing were implemented. It wasn't enough. An evacuation was planned. The inland towns and cities of the United Kingdom were to be evacuated to defensive enclaves being built around the coast, the Scottish Highlands, and in the Irish Republic. Bill Wright, a Westminster insider and an advisor to a future Prime Minister, broke his leg on the day of the outbreak. Unable to join the evacuation, he watched from his window as the streets filled with refugees. He watched as the streets emptied once more. He watched as they filled up again, this time with the undead. Then the power went out. He is trapped. He is alone. He is running out of food and water. He knows that to reach the safety of the enclaves he will have to venture out into the wasteland that once was England. On that journey he will ultimately discover the horrific truth about the outbreak, a decades old conspiracy, and his unwitting part in it. This is the first volume of his journal. (73,000 words)

Billions were infected. Nations fell. The evacuation failed. Bill Wright's journey has only one destination, the research facility that created the virus. As he meets other survivors in his struggle across the wasteland to reach it, he discovers that it is not just the undead who need to be feared. This is the second volume of his journal.

Book 3: FamilyThe undead rose. Nations collapsed. Some people survived. Three months after escaping from London, Bill discovers the true extent of the global war that followed the outbreak. Most of the world has been destroyed, but though ruined farmland and abandoned cities are filled with zombies, there are other survivors and there is a safe haven, so he is told, in a small village on the Irish coast.

Before he can go there, he must find and rescue the children. Then he will have to battle his way through the infected wastelands of England and Wales in the hope that their really is a boat waiting for them. Even then, his journey won't be over. When he is told of the sanctuary awaiting them, he also discovers that the scientist who created the virus escaped from New York. In order for any of them to ever truly be safe, Bill will have to head north to confront the man, discover the truth behind the outbreak and finally choose between his old family and his new one. This is the final volume of his journal. *Zombies vs The Living Dead* The outbreak began in New York. Within days it had spread throughout the world. Nowhere is safe from the undead. As anarchy and civil war took grip across the globe, Britain was quarantined. The press was nationalised, martial law, curfews and rationing were implemented. It wasn't enough. An evacuation was planned. The inland towns and cities of the United Kingdom were to be evacuated to defensive enclaves being built around the coast, the Scottish Highlands, and in the Irish Republic. For George Tull and the other residents of the Waverly-Price Retirement Home, walking to the coast is not an option. Abandoned by the staff, they wait for rescue. It doesn't come. When George leaves the illusory security of The Home and ventures into the nearby village, he finds it deserted. But he is not alone, his unhappy retirement is broken by the undead. George is left with a terrible choice; stay and fight to save the people he loathes, or leave and abandon the woman he has come to love.

*Save Australia, Save the World.* Three weeks after the outbreak, most nations have collapsed. An ever-increasing number of refugees flee, by boat and air, to the perceived safety of the remote Pacific nations. In Australia, every able body is conscripted, local and newcomer alike. The lucky few are put to work in the new factories, farms, and mines. The unlucky many are given tools for weapons, put aboard cruise-ships and cargo freighters, and returned to the ever-moving frontline. But even though the death toll rises, victory is still within reach. The recordings made in North America by Pete and Corrie Guinn contained more than the siblings realised. The footage from Canada and Michigan is further confirmation the outbreak was no accident. The Canadian scientist, Dr Avalon, can prove it. As Commissioner Tess Qwong takes justice to the increasingly lawless outback, Anna Dodson brings order to the chaos of Parliament House, and Dr Avalon works on a weapon to finally destroy the undead. But no plans can survive the impact of a nuclear bomb. From a lawless natural gas refinery in Queensland to the once golden coast of New South Wales. Behind the barricaded streets of Canberra and in the bunker beneath Parliament House, there is still hope for Australia, the Pacific, the world, as long as the lights remain on.

The outbreak changed everything, but there are some bonds even the undead can't break. It's been six years since Pete Guinn last saw his sister, Corrie. He always hoped to see her again, but feared she was dead. When an elusive billionaire reveals Corrie is living under an assumed name in the Australian outback, Pete unquestioningly jumps at the chance of a reunion. But you can't win the lottery without buying a ticket, and billionaires don't do favours for free. Corrie is in hiding from her old employer, and from the Rosewood Cartel. Now that they've both found her, only a miracle can save the two siblings, and what happens in Manhattan can't be described as miraculous. What begins as a viral outbreak soon turns into an impossible horror. People are infected and die, only to rise up and continue transmitting the infection. Even as the army is mobilised, the virus spreads beyond the borders of the United States. Nowhere is safe from the living dead. As Australia is quarantined, the mining town of Broken Hill becomes a transit hub for the relief effort. Tourists are evacuated while civilians are conscripted, Pete and Corrie among them. Together with a bush pilot, a flying doctor, and an outback cop, the struggle to maintain civilisation begins. Supplies run low. Looting is rampant. Laws are forgotten, especially by the cartel who haven't abandoned their search for Corrie and their quest for revenge. Set in Broken Hill and beyond as the Australian quarantine begins. As this book returns to the beginning of the outbreak, it can be considered a good entry point for readers new to the series.

from across the globe have found a refuge on the Welsh island of Anglesey. Hordes of the undead ravage the wastelands of Britain and Ireland. Satellite images show that the rest of the world is no better. Food, fuel, and ammunition are running low and there are no more old-world supplies with which to replace them. Intended as an alternative to a slide into despotism, an election is called. It is hoped the contest will bring forth solutions to the myriad crises facing this last bastion of humanity. After the favoured candidate is hospitalised, suspicion falls on the new frontrunner, a publican who purchased his support with an impossible promise of a return to the pre-apocalyptic world. With no viable candidate, and no way of calling off the election, those who still have access to a ship plan their departure; others plan to rig the contest; a few give up on all plans for a future beyond tomorrow. Anglesey is on the verge of collapse, and humanity is on the brink of extinction. Set in Belfast, the Isle of Man, and Wales during the run-up to the election on Anglesey, this is the sixth volume of Bill Wright's journals.

It took three weeks to destroy civilisation. It won't be rebuilt in a day. A year after the outbreak, a sharp winter is followed by a sudden thaw. Spring has come early to Nova Scotia, bringing new hope. For the thirteen thousand survivors who've found sanctuary in northern Canada, and for the first time since the apocalypse, extinction isn't imminent. But it looms large in the near future, a legacy of the nuclear war that destroyed civilisation. As the weather improves, some survivors quit the small community. Even more plan their departure. The old-world supplies of food, oil, and ammunition have been consumed. More will have to be grown, drilled, and made. Medicine, paper, clothes: in a few years there will be none left to salvage. If it can't be manufactured, it will have to be forgone. What knowledge can't be preserved will be lost. Humanity's future appears bleak unless more people can be found. Hoping there is some truth in the rumours of a redoubt in Vancouver, an expedition to the Pacific is launched. The journey will be perilous as North America was ground zero for the outbreak, and for the nuclear war. Set in Canada and beyond, as survivors from the Atlantic and Pacific meet. Please note, this book features places and events, and heroes and villains from the saga of the Pacific survivors told in the series Life Goes On.

Sixty years ago the world was wrecked during a terrible war. The soil was poisoned. The air became toxic. Billions died. Those who survived took refuge in great towered cities, and began constructing giant colony ships that would enable them to escape the ruined Earth. The work wasn't completed in their lifetime. The seas rose to swamp the diseased land, and lap against the city walls. Their descendants laboured on, and now the first of the spaceships is nearing completion. But these cities aren't dictatorships. An election is scheduled to choose a leader for this last exodus of humanity. With twenty-four hours until voting is due to begin, two workers are murdered. It is the first serious crime in generations, and it is down to the young Constable Ely to solve it. The election must take place. The ships must be launched. Above all, production must come first.
